### [Raspberry Pi Zero: \\$5 computer](#)

Of all the things we do at Raspberry Pi, driving down the cost of computer hardware remains one of the most important.

[Raspberry Pi](#)

### [3916 Santa Net 2015](#)

Every year on 3916, we give good little boys and girls a chance to talk to Santa Claus at the North Pole!

[The 3916 Nets](#)

### [Kids are not the future of Ham Radio](#)

You've heard it a million times: our kids are the future. But I am starting to think it is incorrect.

### [5 things good Elmers do](#)

Sending a newcomer a QSL card is a good way to encourage them to get on CW again, and I included the message, "I hope to hear you on again sometime."

[KB6NU](#)

### [RTTY contest soapbox](#)

I honestly thought I was going to be making blazing fast contacts since it's a "Digital" mode. Nope... RTTY contacts are much longer than CW or SSB.

## APRS Paths explained

"Why is WIDE1-1, WIDE2-1 better than WIDE2-2?" The answer has to do with the use of neighborhood "fill-in" digis.

[wsanders.net](#)

## HF Automatic Link Establishment (ALE)

Automatic Link Establishment, or ALE for short, has become a worldwide standard for initiating HF communications between two or more points.

[VA3QR](#)

## Samuel Morse's other masterpiece

The famous inventor's painting of *Gallery of the Louvre* is as much a fascinating work of art as a 19th century history lesson.
